

EU Pharmaceutical Law Webcast

THE UPCOMING WEBCASTS AT A GLANCE

- Legal considerations regarding off-label use
- Management of liability claims in a (healthcare) company
- Medical Device Regulation:
Implementation update and legal consequences
- IP and legal framework of generics development
- Update: Advertising of medicinal products
- Current legal issues in licensing and public procurement law

YOUR BENEFITS

- A live webcast with expert speakers every two months
- Consolidated information directly at your workplace
- Direct interaction with the speaker

EU Pharmaceutical Law Webcast

Concept

Are you a lawyer in the pharmaceutical industry? We would like to invite you to join our live webcasts, where experts will update you on current developments in pharmaceutical law in the healthcare industry in Europe every two months.

Meet our experts in a virtual conference room and share your experiences.

Each webcast is 90–120 minutes long and consists of a live presentation with supporting slides (which you may also download). Your practical questions will be addressed directly via audio or the chat function coordinated by the meeting chairperson.

Additional benefits

Are you unable to attend one of the webcasts? No problem! After each live meeting, you will be able to retrieve the recorded webcast from our e-learning centre. This allows you to view each webcast at any time and as often as you like. An optional multiple choice test finalizes each webcast, giving you the possibility to receive a personal certificate.
